We understand that each family has their own curriculum; we will enhance your curriculum and make it easier for your children to understand each concept. We will teach by the concept depending on their grade, level, and ability. At this time we can accommodate fully functioning children for group classes; for special classes, we can accommodate all special needs children with parents.

Every child has his or her own combination of gifts, needs, and difficulties with learning, each child deserves a customized learning program suited to their needs. If your child learning style is one-one- one, we provide private tutoring as well.

Language Arts Academy approaches education differently, we understand that for some families, public school is not a good fit. We offer small class sizes of no more than 8 kids per teacher. We also believe that all children learn in a style unique to them. We focus on skill mastery, rather than teaching to the standards required for a State Test. We provide a wide variety of enrichment opportunities to learn a new skill, have fun and make new friends.
